✓ PHYSICAL PRINTER TEST PROCEDURE & VERIFICATION CHECKLIST

1. **Print Command:** Press `Ctrl + P`. Set **Destination** to your physical printer, **Paper size** to **A4**, and **Scale** to **Default (100%)**. Ensure **Background graphics** is enabled.
2. **Check Top/Bottom Borders:** Verify the top gold stripe and bottom navy stripe appear completely. If the top stripe is clipped, set Margin Preset to **"Office Safe (5mm)"** in PDF Designer.
3. **Inspect Card Borders:** Check the table lines and card borders above. If lines appear faint or dotted on your monochrome printer, set **Border Contrast** to **"High Contrast (#64748B)"** or **"Maximum B&W (#1E293B)"**.
4. **Test Background Graphics Off:** Print a copy with "Background graphics" unchecked in Chrome. Confirm Printer-Friendly Mode maintains sharp text and solid borders.
